## SUMMARY

I am a motivated and detail-oriented MERN Stack Developer with hands-on experience in the design and development of full-stack web applications. I completed an internship at Cyfotok Networks, where I gained exposure to real-world projects utilizing MongoDB, Express.js, React.js, and Node.js. I possess strong problem-solving abilities, a capacity to collaborate effectively within team environments, and a strong interest in constructing scalable and user-friendly applications.

## EXPERIENCE

### **MERN STACK DEVELOPER INTERN | May 2025 — Nov 2025**

#### **Cyfotok Networks - Coimbatore**

I am currently enrolled in courses focused on MERN stack development, where I am enhancing my logical thinking and technical knowledge. After mastering HTML, CSS, JavaScript, and React, I plan to create a frontend project to apply what I've learned. Additionally, I am also delving into backend development to gain a comprehensive understanding of how to implement and connect the various components of a web application.

### **MERN STACK DEVELOPER | Jun 2025 — Current**

#### **Techrayos - Madurai**

- Developed dynamic web applications using MongoDB, Express, React, and Node.js.
- Enhanced user experience with responsive designs and intuitive interfaces.
- Optimized application performance, reducing load times by 30%.
- Implemented RESTful APIs for seamless data integration and retrieval.
- Collaborated with cross-functional teams to deliver projects on time.
- Utilized version control systems for efficient code management.

## EDUCATION

### **Kongu Hi-Tek Polytechnic College — Karur | Diploma in Mechanical Engineering | 2014 - 2016**

## SKILLS

React.js

Context API

CSS3

Node.js

MongoDB

RESTful API design and integration

GitHub

Code Reviews

Redux

HTML5

JavaScript (ES6+)

Express.js

Mongoose

Git

Vercel

## CERTIFICATIONS AND LICENSES

MERN Stack Development Course completed in **CYFOTOK**

## REAL ESTATE WEBSITE

I am in the process of developing a real estate website utilizing React for the frontend framework and Tailwind CSS for styling. This project is focused solely on the frontend aspect. The combination of React and Tailwind CSS will enable me to create a modern and visually appealing design, ensuring an excellent user experience for visitors to the site.
